(Herald Special.)
London, Nov. 7.—The date of the hanging of Dr. H. H. Crippen was today postponed, with no definite date set for the execution, though it is thought probably November twenty-third will be the new execution day. The postponement was ordered by the home secretary, who stated that the postponement had nothing to do with the home secretary, who stated that Mrs. Crippen is alive and in hiding, as the result of a plot to send her husband to death.

Commenting on the postponement, Crippen said today:
"I believe something will yet intervene to prove my innocence."

SALOON CONTEST BITTER

Fourth Largest City of the Country Faces the Possibility of Landing in the Dry Column.

(Herald Special.)
St. Louis, Mo., Nov. 7.—Missouri goes tomorrow to the stiffest test which has been made up to date in the state between the liquor interests and the anti-saloon forces. After months of agitation and hard fighting the anti-saloon organizations succeeded in securing the submission to popular vote of a constitutional amendment providing for statewide prohibition. The fate of this measure will be determined at the polls tomorrow. St. Louis, the metropolis of the state and the fourth largest city of the country, views the possibility of becoming a "dry" town with a feeling approaching consternation. The city is one of the largest centers of the brewing industry in the United States. But it is not the brewery interests alone that are displaying alarm over the menace of prohibition. The business interests in general are violently opposed to the proposal, believing that the general prosperity and welfare of the city would be seriously affected by the adoption of prohibition. The fight against the measure in this city has been conducted under the direction of a committee of fifty, calling itself the "Citizens' Defense Committee." The members of it represent the industrial, commercial, educational and professional interests of the city, but none is connected with the manufacture or sale of liquor.

Similar campaigns of opposition have been conducted in Kansas City, St. Joseph and elsewhere throughout Missouri. The anti-saloon forces have been waging an active fight and their leaders express the belief that the proposed constitutional amendment will be carried despite the bitter opposition with which it has met.

LASHED BY BIG STORM

THIRTY MEMBERS OF CREW OF LARGEST SAILING VESSEL IN WORLD FACE DEATH TIED TO RIGGING OF VESSEL.

(Herald Special.)
Dover, England, Nov. 7.—Within a stone's throw of safety, thirty members of the crew of the schooner Preussen, the largest sailing vessel in the world, are lashed to the rigging of the ship today, while great waves wash over them and threaten any moment to drown them.

Life boats are going to sea, and are hovering nearby, but would be dashed to pieces if they attempted to go along side the big vessel.

The men cannot hold out long in their positions, and the storm shows no sign of abatement.
